SERIES 2000 TRACTOR

CC-396

Models: 2130, 2135, 2140, 2145, 2150, 2155, 2160, 2164, 2165, 2185

Date: January 31, 2000

Subject: 731-3150A HEADLIGHT REFLECTOR

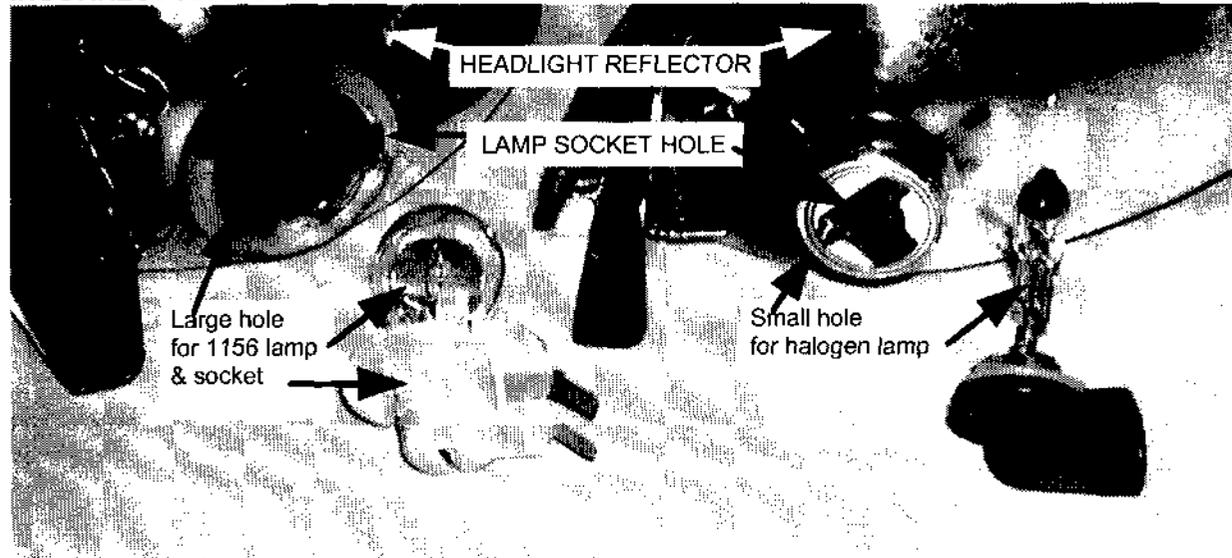

A few 731-3150A headlight reflectors, with wrong size lamp socket holes, have gotten into dealer inventories. This headlight reflector was used on Series 2000 tractors built prior to serial number/date code 1H019G.

Please check if you have any 731-3150A headlight reflectors in your parts inventory. If you do, check the size of the lamp socket hole. Refer to the picture below. Segregate any of the incorrect parts from stock and file a "FORM 8210" (REQUEST FOR RETURN OR CREDIT) to receive reimbursement for them. A blank form is being furnished for your convenience.

Complete the form** and attach a legible copy of the invoice(s) on which the part was charged to your dealer account with the part number and price circled. Mail the completed form with invoice(s) to **Shelby Parts Operations, Attn: Lori Neeley, PO Box 310, Shelby, OH 44875**. **Do not return the incorrect headlight reflector(s) or scrap them at this time**. Store the reflector(s) indoors and in the original package for possible vendor recovery. Upon receipt of your credit, please see that they are scrapped.

INCORRECT PART 731-3150A

CORRECT PART 731-3150A

When existing inventories of the 731-3150A headlight reflector have been depleted, it will be discontinued. Service will then be performed by installing part number 725-3257A or 925-3257A headlight assembly (includes lens, headlight reflector, and halogen lamp).

In the picture above, the headlight reflector on the left is used on Series 2000 tractors built after serial number/date code 1H019G. When this style headlight reflector is required for service, install part number 625-0053 or 925-0053 headlight assembly (includes lens, headlight reflector, 1156 lamp, and socket).

****NOTE:** Completed form must reach Cub Cadet no later than March 31, 2000.

This is being released for informational purposes only.
