Subject: HOOD LABEL DESIGN CHANGES

Running design changes have been made to the hood label on the above model tractors. Some early production tractors (above serial number range) were labeled with raised Cub Cadet script and sprigs affixed to a decal (two piece design). This design was later changed with the Cub Cadet script and sprigs printed on the decal (one piece design). Now, the decal design has been modified with the removal of "by MTD". Part numbers and examples are shown below. **Part number for the seat decal has been added below.**
